History and Heritage

In a place rich with history and cultural heritage, located in the heart of one of the most elegant cities, stands the magnificent Palazzo Victoria, a stunning palace built at the beginning of the XIV^o century.

The mystic and contemplative perfume of the past meets and blends with Palazzo Victoria's contemporary and elegant note. Not only a Palazzo but also a Museum where you can still feel the visible traces of the past. The hotel is the result of millenary heritage of arts, cultures, architectural innovations and style that perfectly match and "live together".

This is the place where tales are not only legends. Palazzo Victoria will reveal its original ruins of roman walls, frescoes of the classic period and memories of the old Veronese tradition. Everything is set amongst romantic corners and alleys.

Location

Palazzo Victoria is ideally located whether the stay is for business or pleasure. It is the perfect venue for guests looking for "luxury" and the "true contemplation of beauty".

Palazzo Victoria is a few steps away from the Arena amphitheatre, close to the main international shopping street called Via Mazzini and facing "Corso di Porta Borsari" - the characteristic street full of typical restaurants and artisans shops.
